ABOUT ME

As a dedicated and enthusiastic front-end developer, I am eager to launch my career in web development. Hi, I'm SunilDas and I take that to heart as a Front-End Developer dedicated to designing seamless and dynamic user experiences. With over a year under my belt, I find joy in converting complex design into interactive realities using HTML, CSS, and JavaScript, along with the magic of React JS, Bootstrap, and Tailwind CSS. It's not just about making websites that look good it's about creating an intuitive, user-centric journey that feels right.

PROJECTS

Project Name I Abias

<https://sunildas8.github.io/abias-1/>

Abias is a responsive web project developed using HTML, CSS, CSS animations, JavaScript, and Bootstrap. It delivers a seamless user experience with modern design elements. The site is optimized for all devices, ensuring accessibility and interactivity.

Project Name I Hunt

<https://sunildas8.github.io/hunt-1/>

Hunt is a responsive web project developed with HTML, CSS, JavaScript, jQuery, and Bootstrap. It provides a seamless and interactive user experience. The site is optimized for all devices, ensuring accessibility and modern functionality.

Project Name I Syrah

<https://syrah-1.netlify.app>

Syrah is a responsive web project developed with HTML, CSS, JavaScript, jQuery, Bootstrap, and React. It offers a seamless and interactive user experience. The site is optimized for all devices, ensuring accessibility and modern functionality.

Project Name I Talkhub chatting app

<https://talkhubchattingapp.netlify.app>

Talkhub is a real-time chatting application powered by HTML, CSS, JavaScript, React, Material UI, React Toolkit, and Firebase database. It offers a modern and intuitive user interface for seamless communication. The application is currently live and operational, providing an engaging user experience.
